Reminders

- Canvas sites will open on October 15. It is helpful to students when faculty post syllabi on Canvas as early as possible, so they have the opportunity to review them before registration opens.
- Instructor permission - the registration system offers a formal permission request and grant process. If instructors have their courses set up requesting instructor permission, they should approve or deny students in a timely manner and before the close of registration.
- Discussion/Lab Section selection - students **will** select discussion/lab sections during the registration period; therefore, at least one discussion/lab section must be offered in CourseLeaf WEN by November 13. Additional discussion/lab sections may be offered at any point during the course enrollment cycle,

based on teaching fellow allocations and student demand.

- Waitlists will be cleared sometime after the close of registration and the opening of add/drop period. Take steps (Argos reports) to copy your waitlist if necessary. Your departmental administrator should be able to help you run a report.

Additional instruction and information will be forthcoming. Refer to the [registration page](#) for further details, instructional documentation, FAQs, and dates and deadlines.

Sincerely,
